ORYNBASAR KOSBAY

+7 775 613 6442 • kosbay12@gmail.com • linkedin.com/in/orynbasar-kosbay • Almaty, Kazakhstan

Senior Full-Stack Engineer and founder with 10 years of experience taking web products from concept to launch. Specialize in AI-powered products — LLM agents, RAG pipelines, and conversational assistants — and have led front-end teams and shipped a full SaaS product suite end to end. Equally effective owning delivery solo or leading a cross-functional team to ship on time.

PROFESSIONAL EXPERIENCE

Presight, Remote — 2024 – Present
Senior Full-Stack Developer

- Lead engineering on a visual workflow-automation platform (n8n-style) built from scratch, scaling to 1,000+ nodes in a single workflow; clients run hundreds of workflow reports daily.
- Build AI conversational assistants alongside the builder using LLMs with RAG, tool use, and streaming, owning end-to-end system design across React and Node.js / NestJS services.
- **Technologies:** React, TypeScript, Node.js, NestJS, LLMs, RAG, AI agents.

Appboxo, Remote — 2022 – 2024
Lead Frontend Developer

- Led a team of 5 developers on an e-commerce platform serving 10,000+ B2B stores.
- Cut front-end bundle size by 40%, improving load time and user experience.
- Drove architecture and system-design decisions, mentored developers, and led code reviews.

Toptal, Remote — 2021 – 2022
Senior Full-Stack Developer

- Built and shipped features for Belk, a major U.S. e-commerce retailer serving 1M+ daily active users.
- Delivered new functionality and resolved UI/UX issues across the stack.
- **Technologies:** TypeScript, React, GraphQL, Node.js, HTML/CSS.

ChocoFamily, Almaty — 2020 – 2021
Lead Frontend Developer

- Led the front-end team in building a payment system from scratch, delivered on schedule.
- Developed payment forms, merchant shop, landing page, and embeddable widget.
- Optimized build time and deployment pipeline, increasing payment conversion by 20%.
- **Technologies:** TypeScript, React, Next.js, Node.js, HTML/CSS, Figma.

Second Company, Haarlem, NL — 2019 – 2020
Full-Stack Developer

- Built modern web applications for the roofing and job-marketing industries with React, Redux, Node.js, Express.js, TypeScript, SQL, and MongoDB.

TopClass, Almaty — 2016 – 2019
Frontend Developer

- Built cross-browser, mobile-first UIs and full-stack CMS solutions with JavaScript, React, TypeScript, AngularJS, and AEM (Adobe).

PROJECTS

VibeCheck (vibecheck-qa.com) — Founder & Lead Engineer — 2026

- AI-powered bug-capture and fixing platform for QA and product teams — records full bug context (video, console, network, user actions) and lets non-developers fix simple issues from the report.
- Built the full product suite: a Chrome extension for capture, a web platform with an AI Fix code agent (a Claude tool-use loop that reads the connected repo and opens pull requests), a JavaScript SDK for passive error monitoring with session replay, and an MCP server exposing reports to AI assistants.
- Grew to 300+ installs on the Chrome Web Store and onboarded 10 B2B clients.
- **Technologies:** TypeScript, React, Next.js, Node.js, Firebase, Anthropic Claude, AI agents, MCP, Chrome Extensions (MV3), rrweb.

EDUCATION

International Information Technologies University, Almaty — 2018 – 2021
Master's Degree, Computer Science and Software Engineering

International Information Technologies University, Almaty — 2014 – 2018
Bachelor's Degree, Computer Science and Software Engineering

SKILLS & OTHER

AI: LLM integration, AI agents (tool use / function calling), RAG, prompt engineering, vector search, streaming, Claude, OpenAI, MCP.
Skills: JavaScript, TypeScript, React, Next.js, Node.js, NestJS, GraphQL, SQL, MongoDB, Firebase, HTML/CSS, Redux, system & API design.
Testing & DevOps: Jest, Playwright, Cypress, unit/integration/e2e, Docker, CI/CD (GitHub Actions), GCP, Vercel.
Languages: Kazakh (native), Russian (native), English (professional).
